Re: Proposed GVH #10, Appendix X, Centennial Project, C 007/019

*Johning*  
C/007/0019

Dear Mr. Hedberg:

Per my discussion with you, I am submitting 5 copies of a proposed modification to Appendix X for the Centennial Project M.R.P. Four additional gob gas vent holes were recently approved for this project. These were holes GVH #5A, GVH #7, GVH #8 and GVH #9. Because the longwall mining has progressed faster than originally planned, the proposed GVH # 5A hole will not be drilled. However, since 4 holes were approved and the drill can be used for all 4 holes, it is proposed to drill the next hole in the series GVH #10, instead of GVH #5A.

Although GVH #10 is located on the next panel, the type of location is the same as previously approved holes, particularly GVH #8 and GVH #1. The hole is accessible via an existing road, and is located in an aspen grove which is very similar to the previously approved GVH #8. Also, this proposal will result in less new disturbance, since GVH # 5A would have required construction of approximately 800' of new access road, where GVH #10 is accessed by an existing road.

Necessary on-ground studies - archaeology, soils and vegetation have been completed, and will be forwarded as soon as the reports are available.

It is very important to ANDALEX that this change can be approved while the drill rig is still

on the property. This will allow completion of the hole during optimum conditions, rather than during the winter or early spring, which would involve additional disturbance due to conditions.

Additional permitting and on-ground studies will also be completed this summer for holes that will be drilled during the next season. ANDALEX will endeavor to predict as best as possible the maximum number of sites required for 2007.

Required C<sub>1</sub>/C<sub>2</sub> Forms are enclosed. If you have any questions, or need additional information, please let me know.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael W. Glasson", with a long, sweeping horizontal line extending to the right.

Michael W. Glasson  
Senior Geologist

# APPLICATION FOR PERMIT PROCESSING

Permit Change ☒ New Permit ☐ Renewal ☐ Transfer ☐ Exploration ☐ Bond Release ☐

Permit Number: ACT/007/019

Title of Proposal: Proposed GVH #10 - Appendix X

Mine: Centennial Project

Permittee: Andalex Resources

Description, include reason for application and timing required to implement: To enhance mine safety by venting longwall gob gas to the surface.

**Instructions:** If you answer yes to any of the first 8 questions (gray), submit the application to the Salt Lake Office. Otherwise, you may submit it to your reclamation

# Application for Permit Processing Detailed Schedule of Changes to the MRP

Title of Application:

Proposed GVH #10 - Appendix X

Permit Number: ACT/007/019

Mine: Centennial Project

Permittee: Andalex Resources

Provide a detailed listing of all changes to the mining and reclamation plan which will be required as a result of this proposed permit application. Individually list all maps and drawings which are to be added, replaced, or removed from the plan. Include changes of the table of contents, section of the plan, pages, or other information as needed to specifically locate, identify and revise the existing mining and reclamation plan. **Include page, section and drawing numbers as part of the description.**
